massage

Cambium Signature Forest Air Massage

This relaxing and refreshing massage blends native forest essential oils, bringing you the health benefits of forest air while releasing deep stress and nervous tension, and stimulating your immune system. This experience also includes hot towel wraps, scalp massage, and Himalayan salt stones.

Uniquely Customized Massage

Cambium's customized massage allows your therapist to spend time targeting your specific needs. Your session will be tailored to the experience you're looking for whether it be a light touch or deep tissue. Therapists may use a variety of techniques such as deep tissue, myofascial release techniques, neuromuscular techniques or Thai massage.

Himalayan Salt Stone

Soothe away stress and tension, and promote an increased sense of well-being. Heated salt stones are used to apply pressure using Swedish massage techniques, allow the minerals from the salt to absorb into the skin to soothe the body and mind and restore equilibrium. Its grounding properties help to improve sleep and balance the central nervous system.

rev up

A holistic approach to maximizing mind & body connection for optimum performance.

Express Chair Massage

For those who need targeted treatment, allow our therapists to work on that troublesome area for 20 minutes so that you can enjoy the rest of your day on the mountain.

reboot

Unique therapies & services to help you reconnect after a day on the mountain.

Cambium Signature Apres Lower Leg and Foot Treatment

Begin with a foot bath to soak your hard worked feet in aromatic oils. Complete with a scrub and light massage to rejuvenate your feet. Finish the treatment with a session in our Normatec compression pants to increase circulation and feel ready for another day.

Normatec Leg Compression

Compressed air to massage your legs, mobilize fluid and speed up recovery, helping you recover faster between ski days or bike days. Each session involves a pre-inflate cycle, during which the connected attachments are molded to your exact body shape.

Halo IR Sauna Session

A synergistic combination of infrared sauna and dry salt therapy. Dry salt therapy benefits respiratory, skin, and recovery. The combination salt, infrared, and sauna engages all 5 senses for a truly transformative experience while allowing your muscles to recover quicker.

Paraffin Foot and/or Hand Treatment

Mountain life takes a hard toll on our skin. Paraffin has healing properties to return the moisture stolen away from dry mountain air while also providing heat therapy to ease stiffness.

tune in

Turn yourself inward with a treatment that helps restore mind and body.

Sole & Sound Footwork

Begin with a foot bath to soak your hard worked feet in epsom salts and receive a light foot scrub. Then move into our sound lounge chair where you'll immerse yourself in a whole body experience with healing vibrations, ambient audio, and a foot treatment.

Sound Lounge Session

Sound Therapy soothes your busy mind and relaxes your entire body using sound frequencies and vibrations. Enjoy the benefits of healing vibrations while adding soothing audio played through headphones.
